

## **AveoRockRack™**

The RockRack™ system from Aveo permits the pilot to build up his rockers freely to meet his exact needs. Selecting the face plates as per the icons page shown below, the pilot can make his cutout for whatever number of rockers he wants, starting with a single rocker up to any number desired, due to the unique locking "dovetail" stacking system....

- > Aviation Icons backlit with LEDs
- > Numerous Standard Aviation Icons
- > Modular mounting system stacks easily
- > Only one cutout needed for any stack size
- > Integrated resistors
- > Quik-Connect Connectors up to 10 terminals
- > Ultrasonic welding seals
- > Removable actuator
- > 150,000 cycle mechanical life
- > 12 volt or 24 volt
- > Silver contacts
- > Custom icons available for volume applications

# Try them in your cockpit!!

1

Cut the switches  
on dotted line

2

Tape them to your  
panel and imagine

3
